

VISIT US AT NEOCON • SHOWROOM #377 AND #3-121

PRODUCT SHOWN:
DesignConnect Modular

HIGHER PERFORMANCE EVERY STEP OF THE WAY.

Lees congratulates Elizabeth Anne Redmond on her commitment to high performance and true sustainability. At Lees, we engineer all our products with the planet in mind. Take our DesignConnect Modular for example. It's an Environmentally Preferable Product that blends stylish design with high performance features like Duracolor's permanent stain resistance. And it's yet another example of the many Lees innovations that create better performing carpets every step of the way.

To learn more about Lees products, please visit leescarpets.com, or call us at 1-800-545-9765.

LEES
the art of performance

Real Life Performance No. 47
SAVING THE PLANET ONE STEP AT A TIME.
At 23 years old, Elizabeth Anne Redmond is inventing new ways to save the planet. One of her latest creations, POWERleap, uses floor tiles to generate electricity. It is actually able to harness kinetic energy as people walk across the tiles, and it won this young designer and inventor a \$10,000 grant from The Mohawk Group.
